Overview

The mission of the University of Delaware (UD) is to develop and maintain strong undergraduate and graduate curricula; strengthen academic, research and service programs; and maintain a strong academic reputation that continues to attract highly qualified students.

The educational experience at UD is one of intellectual fulfillment and preparation for productive careers. The first concern of UD's program of instruction is to provide rigorous and demanding standards to develop primary linguistic, cognitive and information skills in students for success at UD and in postgraduate life.

UD exists to cultivate learning, develop knowledge and foster the free exchange of ideas. State-assisted, yet privately governed, UD has a strong tradition of distinguished scholarship, research, teaching and service that is grounded in a commitment to increasing and disseminating scientific, humanistic and social knowledge for the benefit of the larger society. With roots reaching back to 1743, and chartered by the State in 1833, UD is a land-grant, sea-grant and space-grant institution.

UD is dedicated to outstanding undergraduate and professional education and serves as a major research university with extensive graduate programs. University faculty are committed to the intellectual, cultural and ethical development of students as citizens, scholars and professionals. Graduates are prepared to contribute to a global society that requires leaders with creativity, integrity and a dedication to service.

As an institution engaged in addressing the critical needs of the State, nation and global community, UD carries out its mission with the support of alumni who span the globe and partner with public, private and nonprofit institutions in Delaware and beyond.
